Objective

While I've never been able to control the world around me, I have learned to adapt to it, and respond to its many challenges successfully. Through my evolution from graphic designer to web designer to web developer, my surroundings guided me to the field of study I truly am passionate about: front-end web development. Continuing to develop these skills and sharing my knowledge with others will be my focus as I progress in my career.

Education

Northern Kentucky University, Highland Heights, KY

Bachelor of Fine Art in Graphic Design
